

Tuya Smart Selects Cerence to Provide Multi-Lingual Text-to-Speech for its Two-Wheeler Developer Platform

Septembre 24, 2024

BURLINGTON, Mass., Sept. 24, 2024 (GLOBE NEWSWIRE) -- [Cerence Inc.](#) (NASDAQ: CRNC), AI for a world in motion, today announced that Tuya Smart (NYSE: Tuya, HKEX: 2391), a global cloud platform service provider, is partnering with Cerence to provide multi-lingual text-to-speech (TTS) for its cloud developer platform designed specifically for two-wheeled vehicles, including motorcycles, e-bikes, and more.

Tuya's cloud developer platform provides its customers – in this case, the more than 100 two-wheeler manufacturers using the “Works with Smart Life” app – with a complete set of smart solutions, including apps, cloud capabilities, hardware, and more. Tuya will integrate Cerence TTS into its cloud developer platform designed for two-wheeler solutions, which will further enable riders to request and hear via voice real-time riding speed, riding time, battery information, phone and text messages, etc., making each ride safer and more enjoyable. In the future, the companies will partner to bring additional Cerence solutions to Tuya's cloud developer platform, further enhancing voice-powered interaction for two-wheeler riders.

“As voice-powered interaction continues to gain relevance and usage among consumers, it only makes sense that we would enhance our offerings with voice capabilities,” said Tony Kong, General Manager of Outdoor Business Department, Tuya Smart. “By leveraging Cerence's industry-leading TTS, we bring best-in-class technology to our customers looking to enhance the two-wheeler rider experience with improved safety and functionality.”

“Two-wheelers continue to present an exciting opportunity for Cerence to expand its industry-leading innovation to new areas of transportation,” said Nils Schanz, Chief Product Officer, Cerence. “We look forward to expanding the reach of our two-wheeler solutions, and transforming the rider experience, by partnering with Tuya to reach developers driving innovation within two-wheeler manufacturers.”
