

Audi Selects Cerence Generative AI to Expand Capabilities of its In-Car Assistant

June 27, 2024

Audi will deploy Cerence Chat Pro to current and upcoming models, delivering added intelligence in its in-car assistant

BURLINGTON, Mass., June 27, 2024 (GLOBE NEWSWIRE) -- [Cerence Inc.](#) (NASDAQ: CRNC), AI for a world in motion, today announced that Audi, part of the Volkswagen Group, will leverage generative AI from Cerence to expand the capabilities of its in-car assistant.

With a dual focus on creating added value for cars already on the road as well as advancing its in-car assistant capabilities for the future, Audi will first deploy Cerence Chat Pro in Audi vehicles equipped with the MIB 3 infotainment platform, beginning with model year 2021 via back-end activation as well as upcoming models. In addition, Cerence Chat Pro will be integrated as part of Audi's in-car assistant, extending its capabilities within HCP3, the new, high-performance computing and infotainment platform that will be rolled out to both electric and combustion engine vehicles.

"At Audi, we are deeply committed to advancing the future of the AI-powered, software-defined vehicle and delivering a best-in-class in-car user experience," said Marcus Keith, Vice President of Interior, Infotainment and Connectivity at Audi. "By expanding our long-term partnership with Cerence, we bring critical, automotive-grade generative AI applications to Audi drivers, empowering them with the information they need for a safe and enjoyable journey."

As the global industry leader in AI-powered interaction for the car, Cerence leverages generative AI and large language models to deliver meaningful, added value for automakers and their customers. Cerence Chat Pro is a uniquely intelligent, automotive-grade ChatGPT integration that enables drivers and passengers to engage the in-car assistant in fun and conversational chit-chat, leveraging a multitude of sources, including ChatGPT, to provide accurate and relevant responses to nearly every query imaginable.

"We're proud to continue our [collaboration with Audi and the Volkswagen Group](#) to extend the reach of our generative AI-powered solutions to even more drivers," said Christian Mentz, Chief Revenue Officer, Cerence. "Cerence Chat Pro will enhance the Audi in-car assistant with an unmatched level of intelligence, enhancing safety, comfort and productivity on the road."
